RE: Modification to Work in the IAC

Dear Mr. Schassburger:

Pursuant to Part 2 Paragraph 1.1 (Additional Work or Modification to Work) of the IAC, CDH and EPA hereby notify DOE that certain IHSSs included in Operable Unit 6 (Windsor Creek) and Operable Unit 16 (Low Priority Sites) and the investigatory and remedial work associated with them are now to be addressed as part of alternate OUs as follows:

IHSS 167.2, from OU 6 to OU 7 (Present Landfill)

IHSS 167.3, from OU 6 to OU 7 (Present Landfill)

IHSS 196, from OU 16 to OU 10 (Windsor Creek)

IHSS 197, from OU 16 to OU 10 (100 Acres)

IHSSs 167.2 and 167.3 are areas that are used for private vapor intrusion of leachate contaminated landfill pond water. Recent relocation of these IHSSs places both within OU 7's boundaries. Assessing the impact of spray evaporation activities around the pond is an integral part of OU 7's Phase I RFI/RI and it would be difficult to separate these poorly delineated IHSSs from those investigations. Furthermore, OU 7's field work has already performed surface soil and subsurface soil sampling across these areas, whereas OU 6 has not.

IHSSs 196 and 197 were originally grouped into OU 16 because of the likelihood that previous remediation efforts and/or natural environmental processes at this site have limited the need for any further remedial response actions. However, the Risk Assessment Analysis performed in the Final No Further Action Justification Document determined that IHSSs 196 and 197 further investigation is warranted. This is due to the possibility that complete exposure pathways may not have been fully addressed and remedial action may not have prevented release and migration of contaminants.

EPA and the Division consider these changes to be a modification to work associated with implementation of the IAC and are effective immediately. Although these changes are recommended by DOE, if you do not agree with any of the changes, you may invoke appropriate dispute resolution procedures within 14 days. However, we would appreciate early notice of your disagreement so that an attempt can be made to resolve differences before dispute resolution is invoked.

ADMIN RECORD

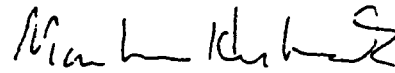

400-100-107

If you have any questions regarding IHSSs 167 and 167, please contact Carl Spreng (CDH) at 692 3358 or Bill Fraser (EPA) at 294 1081. For questions in or on IHSSs 196 and 197 please call Jeff Swanson (CDH) at 692 3416 or Arturo Duran (EPA) at 294 1080.

Sincerely

Gary W. Baughman, Chief
